Ancient land stewardship. Modern wildfire protection.

WILDFIRE FUEL REDUCTION | INVASIVE SPECIES MANAGEMENT | DEFENSIBLE SPACE CREATION

Santa Fe Goat Guys deploys Spanish goat herds with Great Pyrenees livestock guardian dogs to reduce wildfire risk, manage invasive species, and restore vegetation balance — naturally, effectively, and without chemicals. All-in daily rates include herd management, guardian dogs, portable fencing, paddock moves, and daily site care.

FULL HERD DEPLOYMENT — 35 GOATS (MAXIMUM COVERAGE)

Best for: Larger properties, fastest clearing speed, comprehensive fuel reduction campaigns.
All rates are all-in. No separate mobilization, supervision, or paddock move fees.

Engagement Period	Daily Rate	Est. Days*	Est. Total*
Days 1–10	**$275 / day**	5–10 days	$1,375–$2,750
Days 11–20	**$225 / day**	11–20 days	$2,750–$3,875
Days 21–30	**$200 / day**	21–30 days	$3,875–$5,125

STANDARD HERD DEPLOYMENT — 20 GOATS

Best for: Mid-size properties, targeted treatment zones, simultaneous second-job deployments.

Engagement Period	Daily Rate	Est. Days*	Est. Total*
Days 1–10	**$225 / day**	5–10 days	$1,125–$2,250
Days 11–20	**$185 / day**	11–20 days	$2,250–$3,100

SMALL HERD DEPLOYMENT — 15 GOATS

Best for: Smaller lots, spot treatments, residential defensible space, pilot engagements.

Engagement Period	Daily Rate	Est. Days*	Est. Total*
Days 1–10	**$175 / day**	5–10 days	$875–$1,750
Days 11–20	**$150 / day**	11–20 days	$1,750–$2,750

UNIVERSAL TERMS & SERVICE AREA

Minimum Engagement: 5 days on all deployments
Included in Every Rate: Daily herd management, Great Pyrenees LGDs, portable fencing, paddock moves & mobilization
Service Area: Within 30 miles of Santa Fe, NM | Distance surcharge: $0.75/mile over 30 miles (one-way)
Duration Estimates: Based on site assessment of treatable acreage & vegetation density — always quoted as a range

** Duration and total estimates based on moderate vegetation density (piñon-juniper scrub). Final quote confirmed after site assessment.*
